

## Ann muffetiers

15 g. 2-ply qiviut for 2.

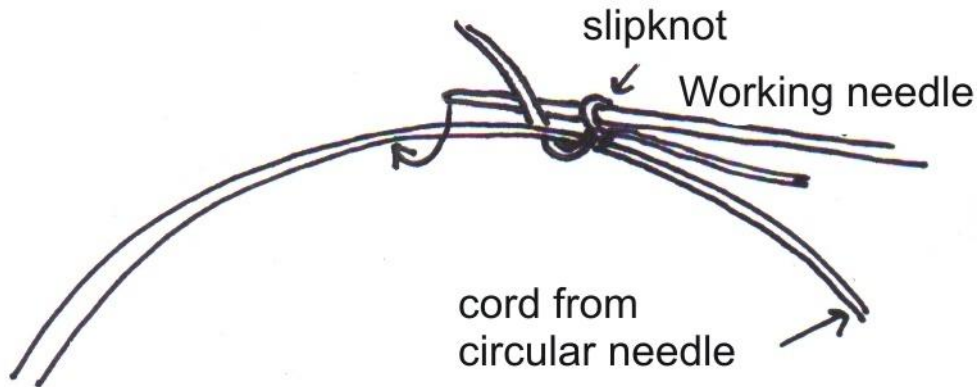

5 x 5 cm = 9 stitches og 18 rows garter

Cast on 30 stitches provisional (More stitches = longer muffetiers)

Knit 16 cm. On the last row take the stitches from the cast on and knit them together with the stitches. Or graft the last row with the first.

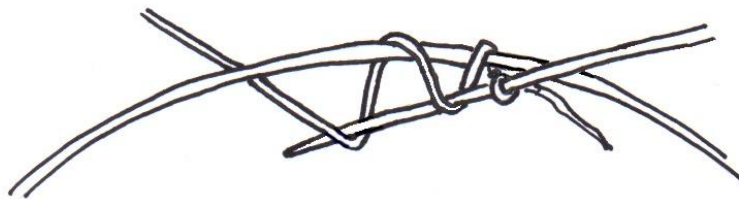

Cast on provisional style.

Provisional cast on with a circular needle:

Make a slipknot on your working needle. Hold the cord from a circular needle under the working needle and grab the yarn with the tip of your needle.

Grab the yarn alternatively over and under the cord.

Continue until you have the wanted number of stitches

Turn and knit from your working needle, let the cord hang loose under your knitting.

When finished, use the stitches on the cord to graft, knit together with the finished row or knit the stitches, continuing your knitting in the other end.
